

PREPARING TO TREAT INSIDE FOR ANTS

A. Before Treatment

1. Remove or cover all children's toys, bottles, etc.
2. Remove all pets: dogs, cats, birds, etc.
3. Cover fish tanks and turn off pump.
4. Completely empty all affected and adjoining cupboards and drawers in kitchen and bathroom.
5. Wipe out, clean and disinfect cupboards before treatment.
6. Move furniture in affected area a minimum of 1 foot from walls.
7. Turn off heater and air conditioner.
8. Close all windows and doors.

B. During Treatment

1. Vacate premises and remain outside for two hours after treatment
2. Take all valuables with you when you leave.

C. After Treatment

1. Open windows and doors and turn on fans.
2. Ventilate minimum 15 minutes before entering.
3. Allow spray to dry completely before putting food in cupboards.
4. When it is dry, then sweep or vacuum up dead ants.
5. Do not wipe off barrier after treatment.
6. Allow minimum seven days for treatment to work.
7. Any questions, please call Dynamite Exterminators at 578-BUGS (2847).
